Susan -- No, there is no press release. There is a link EPA's Pennsylvania page to the sampling results. Let me know if you have any questions.

Thanks Roy, the link took me to your media page but I'm wondering if there is a press release on this?

Subject: Update on latest water sampling data from Dimock, Pa.

EPA has completed and shared with residents and Pennsylvania state officials the second set of sampling at 20 private drinking water wells in Dimock, Pa. This set of sampling did not show levels of contaminants that would give EPA reason to take immediate action. EPA remains committed to providing Dimock residents with the best available data and information on the quality of drinking water as expeditiously as possible.

For more information on the sampling results, visit: <http://www.epa.gov/aboutepa/states/pa.html>
